Narcotics Projects and Activities				
o The TOR for the International Narcotics Coordination and Collection Study has been modified in accordance with CIPC guidance. Specifically the TOR was revised to include:				
 A new section on dissemination, production and coordination; 				
 An approach to accommodate "phased" recommendations; 				
 Adjustment of the study's production schedule in order for it to affect the FY 85 budget, as appropriate. 				
Note: The study production schedule has been adjusted to the extent that a final draft report for CIPC review will be available by 15 August.				
 The foregoing changes were reviewed and concurred upon by the Narcotics Working Group on 26 April 1983. 				
 The TOR is presently being finalized, to include the foregoing, for dissemination to the CIPC members for their final review and concurrence. 				
 As noted above, the Narcotics Working Group met yesterday. In addition to reviewing the TOR they also made various task assignments with specific due dates.
